If your Bible is a study Bible that gets regular daily use, BUCKRAM would be the best choice for you.

Bonded leather simulates genuine leather without having the long-term durability. As such, bonded leather is best suited for preservation/presentation bindings that will not receive heavy usage.

When placing a Bible rebinding order, please make sure to discuss the following:

- Should the new cover be hard or flex?
- Do you want HOLY BIBLE imprinted on the spine only, or front cover as well?
- If you want custom imprinting, specify exactly what it should be. Please note additional charges may apply (\$5-7 per word group)
- GOLD is the assumed imprint color unless otherwise stated.
- We will insert a ribbon page marker unless you indicate otherwise. Additional ribbons are \$1.50 each.
- Bibles needing excessive prep work will be charged \$25 per hour.
